

FORCE PAYMENT.

The California National Bank's Suit

Against the State Loan and Trust Company.

To Recover Twenty Thousand Dollars on Stock.

The report of Charles Fair's arrest in connection with the fruit-growers' committee—irrigationists at San Diego—A Murder.

By Telegraph to The Times.

SAN FRANCISCO, Oct. 17.—(By the Associated Press.) The suit of the California National Bank of San Diego, which became insolvent in December, 1894, against the State Loan and Trust Company, of Los Angeles, to force the payment of \$20,000 on 200 shares of capital stock, was argued yesterday before the United States Circuit Court of Appeals from the defendant's point, by Attorney W. P. Gardner, who said plaintiffs are entitled to the stock on the basis of the bank's books as assessed at its full face value by the action of the Comptroller of the Currency, as is usual when banks fail, but the defendant's counsel contends that it did not own the 200 shares that the stock was simply held as a pledge in trust as collateral to secure a note for \$12,500 owed to it by S. G. Havermaale and D. D. Dare.

Mr. Havermaale and J. W. Collins have transferred their stock to it as such security.

THE IRRIGATIONISTS.

They are Deeply Impressed With the Results of Water Applications.

SAN DIEGO, Oct. 17.—(By the Associated Press.) Twenty letters from the Irrigation Congress were escorted about the town on electric cars and to Tia Juana and the Sweetwater dam, according to programme, returning late in the afternoon to the city. They were much impressed with the results already attained by irrigation in the young orchards of Chula Vista and National City, and were enthusiastic in their praise of the work which is being accomplished by the fruit-growers of San Diego county.

Lunch was served under the shade of trees on the grounds of Warren Kimball at National City, where an elegant style, which was highly appreciated. Tonight a public meeting is being held at the Chamber of Commerce, the principal address being delivered by Judge J. T. Emery of Kansas. The party will leave here in the morning for the North.

At a meeting of the Executive Committee tonight, at the Chamber of Commerce, Elwood Mead of Wyoming, John H. Cottrell of Oklahoma and Dr. Merchant of North Dakota were added to the committee.

Hon. W. A. Clarke of Butte, Mont., was elected a member of the committee to have charge of the national legislation pending in congress relating to irrigation affairs.

AN ECCENTRIC PHYSICIAN.

Dr. P. W. Bradbury Dies Suddenly at San Diego.

SAN DIEGO, Oct. 17.—(By the Associated Press.) Dr. P. W. Bradbury, an eccentric old man, who has been living in this city for some months, died suddenly tonight at his lodgings in the Emerson House. An inquest will be held tomorrow to ascertain the cause of his death. He is said to have been recently charged with the murder of a woman in Los Angeles, and it is believed he has been living on the bare necessities of life, and is said to have subsisted wholly on his daughter's pension of \$20 a month. He is believed to have a wife and son in St. Louis. He was, in years past, a practicing physician in that city and in Washington.

CALIFORNIA OLD FELLOWS.

The Thirty-ninth Annual Session of the Grand Encampment.

SAN FRANCISCO, Oct. 17.—(By the Associated Press.) The thirty-ninth annual session of the Grand Encampment of California, T.O.F.F., commenced this morning. Grand Patriarch C. W. Savage presided.

The election of officers resulted: L. W. S. Downey, Grand Patriarch; George B. Rebeck of Stockton, grand high priest; George W. Reid of Santa Cruz, grand senior warden; Walter B. Williams, grand representative; W. H. Barnes, H. S. Winn and F. A. Weck, grand trustees.

FAIR NOT CAPTURED.

He is Reported to Be Speeding Eastward With His Wife.

SAN FRANCISCO, Oct. 17.—(By the Associated Press.) It is now known that Charles Fair was not arrested last night, at the instance of his father, and, instead of being confined in a mad-house, he is now speeding through Arizona, with his wife, on the Santa Fe train. It is not known how the story originated, but it is a general rumor all over the city, last night. All day yesterday attorneys and officers were scouring the city to capture young Fair from his captors, and it was not discovered, until late this evening, that he had not been captured.

FRUIT-GROWERS.

A Committee Appointed to Select a Delegate to Washington.

SAN FRANCISCO, Oct. 17.—(By the Associated Press.) At the joint meeting of the State Board of Trade and Fruit-growers today, H. S. Cole of Fresno, president of the board, appointed a committee consisting of E. W. Maslin and B. W. Lejong, a committee to secure the services of a person to proceed to Washington and present to Congress the facts upon which California fruit-growers are insisting that the tariff on imported fruits should be adjusted so as not to conflict with the interests of California fruit-growers.

MAKING CONCESSIONS.

The Sailors' Union Recognizes the Rights of Shipowners.

SAN FRANCISCO, Oct. 17.—(By the Associated Press.) The Sailors' Union, at a meeting last night, passed this resolution: "Resolved, that the Sailors' Union is ready to furnish men to all vessels desiring them, provided they are granted to captains to pick their sailors from any part of the rank and file of the union. The right is granted to members of the union to look for their own jobs on any vessel that they may desire. This rule does not apply to the coast branch of the union, which will be allowed to make such shipping regulations as may be best

THE CALIFORNIA NATIONAL BANK'S SUIT.

fit to govern any particular requirements that the occasion may demand.

The action shows that the union recognizes the impossibility of maintaining any standard of wages, or of compelling the ship-owners to patronize its office in this port. The outside of fees are left to do as they choose. It is the hope of the union officers that, after the present depression is over, they will again be able to resume its old place.

A PROMINENT CITIZEN.

Death of the Projector of the Cucamonga Peak Observatory.

POMONA, Oct. 17.—(By the Associated Press.) Dr. B. H. Hauer Fairchild, aged 66 years, died suddenly last night of neuralgia of the heart. He was a surgeon in the navy during the rebellion, and was among the earliest American residents of this valley. He has spent much time and means in the study of the Cucamonga Peak, and had secured the favorable attention of Harvard University.

A BURGLAR'S CRIME.

A Prominent Merchant of Pullman, Wash.

PULLMAN (Wash.), Oct. 17.—(By the Associated Press.) A. B. Cooper, a merchant of this city, was shot and killed last night by a burglar, who escaped. A posse is in pursuit of the murderer, who, if caught, will probably be lynched.

Tons of Hay Burned.

MERCED, Oct. 17.—Fire near here, last night, destroyed a large hay barn containing 465 tons of hay. The property belonged to W. H. Hartley, a local capitalist, and was insured for a small amount. It is supposed to have been set by tramps.

ON THE RAIL.

Fatal Accidents Yesterday in Pennsylvania.

Seventeen Persons Injured in a New York, Pennsylvania and Ohio Collision—Wreck on the Fort Wayne.

By Telegraph to The Times.

ALTOONA (Pa.), Oct. 17.—(By the Associated Press.) A serious accident occurred on the New York, Pennsylvania and Ohio Railroad just below this city. Seventeen persons were seriously injured and a number of the injuries may prove fatal. A work-train was run into by a local passenger train, which was wrecked. The passenger train was demolished and the stove was overturned. The car caught fire and some of the passengers were killed.

After some difficulty the fire was extinguished, and steps were at once taken to carry out the injured. The sight was horrible. Thrown in every direction, the bodies of the dead and the young orchards of Chula Vista and National City, and were enthusiastic in their praise of the work which is being accomplished by the fruit-growers of San Diego county.

Lunch was served under the shade of trees on the grounds of Warren Kimball at National City, where an elegant style, which was highly appreciated. Tonight a public meeting is being held at the Chamber of Commerce, the principal address being delivered by Judge J. T. Emery of Kansas. The party will leave here in the morning for the North.

At a meeting of the Executive Committee tonight, at the Chamber of Commerce, Elwood Mead of Wyoming, John H. Cottrell of Oklahoma and Dr. Merchant of North Dakota were added to the committee.

has silver in the past been produced in quantities sufficient alone to supply the needs for money. Indeed, times—and sometimes for periods, during the middle ages—the production of both metals together was not sufficient even to keep the money volume intact. On the contrary, from the beginning of the Christian era to the discovery of America, the total stock of both metals fell from about \$1,640,000 to \$184,000,000 at the close of the

The number 10 is very noticeable in the life of A. Northup, of Ray county, Mo. He was born on July 10. His wife is 10 years younger, also born July 10. Northup enlisted July 10 and was discharged July 10. He fought on Island No. 10. He has a 10 children, and wears No. 10 shoes.

ing with her husband and son from the World's Fair, and an extensive trip through Germany, while attempting to cross from one car to another, in the darkness, was thrown violently from the train, receiving serious injuries, although no bones were broken.

shown, and are now very comfortably situated. They have removed a week from Temple street to the northwest corner of Washington and Hood streets. Their children were not ones that died from diphtheria, many have supposed.

with one engine and twenty-five loaded cars and coaches, containing 11 passengers. No equal number of passenger cars was ever made up in single train hauled by one engine before, and no record exists of 1143 passengers having been carried on a single train.

for the Temple-street cable road for day of sale, and may be had on application at the office of the auctioneers Messrs. Easton, Eldridge & Co., No. 30 South Broadway.

ACME Stationery and Art Co., corner Third and Spring streets.

THREE ON HAND.

Weekly Meeting of the Police Commission.

Just Enough for the Transaction of Business.

Saloon Licenses Granted and Transfers Allowed.

Officer Dugan Fined Twenty-five Dollars—The Saloon Rules to Go into Effect November 1—Routine Business.

Police Commissioners Bradish, Bosbyshell and Weldon were the only members of the board present at yesterday's meeting. Commissioner-elect Stockwell had not qualified, and Mayor Rowan was out of town. Commissioner Bosbyshell presided.

On a favorable report of the chief, the application of Emil Waldeck, for the transfer of the saloon license at No. 233 East First street, from George W. Drake, was granted.

The application of Charles Bogart, for a saloon license at No. 233 East First street, was denied.

The chief reported that he had suspended Officer Sam Dugan to await the action of the commission, on account of a violation of the rule of the department in reference to intoxication. The chief stated that the officer had appeared to be very sorry on account of what had happened, and had stated that he was not feeling well, and had judiciously taken a small quantity of "rum and gum" as medicine. For a short time he was drowsy, and unfitted for duty. The chief further stated that, although Officer Dugan had been guilty of a similar offense once before, it was two or three years ago, and was when he was off duty. He paid a high penalty, and to the general faithfulness and praiseworthy work of the officer.

There was some difference of opinion among the commissioners as to what should be done in the matter. Commissioner Bosbyshell was in favor of severe measures. He said it was a serious thing, and should be dealt with accordingly. Commissioner Weldon was inclined to be lenient, urging that the officer had a family, while Commissioner Bradish urged a medium course. It was finally decided to fine the officer \$25, without suspending him.

A petition from Walter Nicholson for a withdrawal of license at No. 300 North Alameda street was granted. An application from Joe Manning, for a license at the same place, was referred to the police.

An application from Spennett Bros. for a transfer of the saloon license at No. 416 North Main street, from O. H. Keifer, was referred to the police.

An application from T. A. Jones, for a transfer of the license at No. 228 South Spring street, from Robert Curran, and an application from Robert Curran, for a license at No. 201 West Second street, were both granted.

The petition from E. L. Lewis and others, asking for additional police protection in the neighborhood of Temple street and Beaudry avenue, as referred to Councilman Innes at the last meeting of the board, was returned by that official, with the information that he had no report to make, and requested the board to use its own judgment in the matter.

A petition from John G. Downey and a large number of others stated that it was understood that an attempt had been made to secure the removal of Officer Shannon, who was stationed at the Temple-street crossing. The petitioners wished to state that they believed the attempt at such removal had been made by one whom Shannon arrested for fast driving, and who was soon thereafter convicted of that offense in the Police Court. They believed that instead of being removed the officer should be commended for doing his duty. The petition was filed.

Applications from G. W. Hudson, George McPhaul and James W. Bell for positions on the force were filed. Action in the matter of the complaint of J. M. Wicks against Garcia Bros., at Chicago and First streets, for selling liquor to minors was deferred one week.

On motion of Commissioner Bradish it was decided that the time for the new rules for the government of saloons to go into effect should be changed from October 1 to November 1, and that the printed rules should have underneath them the words "By order of the Board of Police Commissioners, W. W. Robinson, Clerk."

A letter was read which had been received by the chief from a resident of the city, stating that he desired a position as a driver at the crossing at First and Main streets, and would give all of his wages over \$50 per month for the first five months. The communication was ordered consigned to the waste basket.

KILLED THE CHILD.

The Chinese Doctor's Medicine Was Too Powerful.

Coroner Cates held an inquest yesterday morning on the body of the child of Frank Lopez, on Alpine street. The jury rendered a verdict that the child came to its death "by the use of too powerful a medicine, administered by unskilled hands and advice in the person of Tom She Bin, and we further find from the testimony that Tom She Bin has no right to practice medicine."

The Chinese physician referred to was examined at length at the inquest, which resulted in the verdict given above. Although steps were taken in that direction the alleged doctor was not arrested yesterday.

He had not registered at the City Health office, as required by ordinance, the penalty for the violation of which is a fine of \$100 or imprisonment for fifty days, or both. After consulting the City Attorney in reference to the matter, it was deemed advisable to proceed under the State law, which requires that practicing physicians must hold certificates showing them to have passed an examination under the direction of one of the three medical societies, or as the medical, eclectic and homeopathic. For a violation of this law the penalty is a fine ranging from \$50 to \$500, or imprisonment ranging from one month to one year, or both.

Everybody is Going To the grand auction sale of lots at Angeleno Heights, which takes place next Saturday, at 2 o'clock p.m. Be on hand if you want a bargain. There is money in it for you. Angeleno Heights commands a fine view of the city. Maps, catalogues and special free ticket, Temple-street cable road, at Easton, Eldridge & Co., 121 South Broadway.

The W. C. Furey Company Sells the famous Gleanwood cook stoves and ranges, acknowledged the world over to be the very best. They are more convenient, last longer and consume less fuel than any other stove known. Do not fail to see them.

POZON'S COMPLEXION POWDER is universally acknowledged as the best in the world. It is the only powder that will improve the complexion, eradicate tan freckles and all skin diseases.

THE HOTEL DEL CORONADO

America's famous seaside resort.

Is the ideal place for the tourist in search of health, pleasure or comfort. Modern in every detail with the most charming environments.

Coronado Agency, 129 N. Spring, Los Angeles.

THE EAST SIDE.

Funeral of Mrs. Barmour—Personal and General Notes.

Mrs. Barmour, who died on Saturday of consumption, was buried Sunday afternoon from the residence, on Hawkins street. Her husband is also quite low with the same disease, and will probably be taken to the County Hospital. Two of the children will go to their grandmother, who lives in the mountains up the coast from Santa Monica, and the oldest girl will probably be adopted by a lady over in the city.

Frey Bros. have commenced the erection of a one-story building, adjoining W. H. Perry's store, to be occupied by themselves, with one room for rent.

C. S. Bradford and wife returned on Saturday from an eleven weeks' visit to the East, having put in considerable time at Chicago as well as among old friends in various parts of Ohio.

W. W. Stockwell has just returned from Monterey, where he went a week since to attend the High Court of Foresters.

The East Side was thronged with tramps yesterday, and Capt. McKeag counted thirty-three during the course of an inspection tour through the willows and about the Southern Pacific bridge.

The electric people began yesterday afternoon on the long expected work of tearing up the track previously laid on Hawkins street, in the direction of the park. The rails are to be used in repairing the Pico Heights and Vernon lines, which are now provided with but the lightest of iron, utterly insufficient to stand the wear of heavy traffic. It would now seem as though there was no possibility of the electric cars ever reaching the park except in the event of the Kuhn-street horse line being equipped with electricity, or a spur being run down from Pasadena avenue by way of the newly acquired cable track. In either case, it will be a long time before it will cease to be fashionable to walk through the six or seven blocks of dust which separate the park from the thickly settled portion of East Los Angeles. Now that the lake has been provided with boats, and the park authorities have placed a new supply of benches in the shady nooks, this resort is rapidly becoming more and more popular, as is evidenced by the constantly increasing crowd of pleasure seekers and students of nature's text-book of botany, who come each Sunday from the other parts of the town to wander through the big conservatory and to bask in sunshine upon the great green lawns.

The World's Fair Commission. The World's Fair commissioners met at the Chamber of Commerce yesterday morning.

There were present Commissioners Forrester, Scott, Mosher, Vawter and Willard. Commissioner Forrester occupied the chair.

After passing upon a number of bills a communication from the supervisors was read to the effect that numerous set pieces now on exhibition at the fair, such as the Palace of Plenty, the Walnut Tower, etc., will be returned here after the exhibit is closed and placed on exhibition at the Chamber of Commerce rooms.

The secretary announced that when World's Fair matters are settled there will be left a margin of \$10,000, out of \$40,000 appropriated.

At Auction Next Saturday. At Angeleno Heights, 150 large family lots, to be sold under the direction of Easton, Eldridge & Co. Everybody invited. Sale commences at 2 o'clock p.m. Maps, catalogues and special free ticket, Temple-street cable road, at Easton, Eldridge & Co., 121 South Broadway.

THE JULIUS BROTHERS, who formerly made such fine taffy and other candies, opposite the old court house, have opened a "Candy Kitchen," at 118 North Spring.

MOTHERS be sure and always use Mrs. Winsor's Sycamore Syrup for your children while teething. It is the best of all.

GRAND OPENING

We wish to announce to the people of Los Angeles that we have come to stay, and propose to carry out the idea our name implies. If you are desirous of procuring a perfect fit at the right price call on us.

Our buyer has had several years' experience in the largest eastern cities, and for the past five years has devoted his time to the wants of the people of the Pacific Coast, spending the entire summer designing lasts and patterns for this locality only.

Remember, every pair of shoes are made especially for us by the largest factories in the East. We have taken advantage of the cut in freight rates and propose to give our customers the full benefit.

THURSDAY

OCT. 19.

To make it interesting for the boys and girls we will give a regular base ball with every pair of Boys' Shoes, and a full-dressed doll with every pair of Girls' Shoes sold. This offer is for opening week, October 16-21. All are invited to attend our opening whether wishing to purchase or not.

113-115 N. Spring St.

AN advertisement coming from this house is not written to mislead. We have been doing business in the city of Los Angeles for eleven years, and with an experience of thirty years have never yet allowed misstatements to go out calculated to deceive. No merchant can afford to sacrifice business honor to gain spasmodic trade; it is only a question of a few days before the methods become thoroughly known, and the dullness following is only the more pronounced. Facts plainly stated are a man's credit; confidence is harder to gain than to lose. Business is slowly built, it does not grow in a night. No merchant is smart enough to mislead the public at all times. When the reaction sets in over the portals of the door may be written failure, dishonor, insolvency, and we may add disgrace. The Shoes we are now selling at \$1.50 a pair, are shoes worth and always sold for \$6.50, \$6, \$5, \$4.50, \$4, \$3.50, \$3; they are Reynolds Bros., P. Cox & Co. and are in every respect first-class. The sizes run from 11 to 1 in Misses; in Ladies we have sizes 2, 2½ and 3. Some of these shoes are the finest hand-sewed French Kid, and our only object in selling them for \$1.50 a pair is to close the Shoe Department. Today a big lot of Jersey-ribbed Underwear, pants and vests, in all sizes, a regular 75c quality for 50c; still a better grade, worth \$1, for 75c, and the best grades ever offered for one dollar—three special lines worth seeing. Today another new lot of Jackets and Capes, special values, \$9 and \$10, the latest styles out; another new lot for misses and children, \$3, \$3.50, \$4, \$4.50, \$5; extra good for the money. One price, plain figures, money refunded on unsatisfactory purchases—that is the way we sell cloaks—nothing fairer, nothing squarer. We cut, fit and baste capes free for all who buy their material here. Still more Gloves, sizes 5½, 5¾, 6, blacks and colors, down to 49c, regular price has been \$2, \$1.75, \$1.50, \$1.25—now 49c—odds and ends. We have all sizes in the Villa Gloves, 7-hook blacks and colors; the best fitting, the best wearing, there is no glove its equal; this is a broad assertion, yet by all who have worn the Villa Glove there is but one story to tell—they have no equal. We fit and guarantee the Villa gloves; the gloves at 49c are not fitted, not warranted, not taken back, not exchangeable. This business grows upon straight methods; no misrepresentations, no misleading statements. When we tell you the dress goods trade is growing this is apparent to everybody. Moderate prices, large stocks, goods shown with the greatest freedom, no urging of sales. Largest and best assortment for 50c, 60c and 65c; specially good values, 75c, 85c, 90c, \$1. Velveteens, 50c, 60c, 65c, 75c, \$1. Fine Silk Velvets, all new shades, all new goods, \$1, \$1.25, \$1.50. Trimming Silks, \$1, \$1.25, \$1.50, \$1.75, \$2, in new fancy styles. Broadcloths, \$1, \$1.25, \$1.50, \$2, \$2.50, \$3 a yard; blacks, white, tans and all the new shades. When you buy a Royal Worcester Corset you buy the best. We will sell you a Royal Worcester for \$1 that is equal in every respect to any \$1.50 quality in the market; it is better than a Warner's \$2 quality, it is equal to a Thompson's \$1.50 quality, it is better than an R. & G. for \$1.50; better in style, better in fit; longer waisted, better made. We have Royal Worcester fitters, ladies who understand the art of fitting corsets. Have your corset fitted along with any other well-known brand and every time you will buy a Royal Worcester. Have you seen the new Worth model? We sell the only whalebone corset in the city—we repeat it, the only whalebone corset; corsets boned with real whalebone are branded on the inside.

PASADENA.

Up-to-date Notes on the Paving Question.

A Romantic Marriage—Various Items of Local Interest—People Coming and Going—Newly Batch of Brevities.

Work was begun Tuesday afternoon on the asphalt surface on Colorado street, between Fair Oaks and Raymond avenues. Judging by the way it progressed it will not require more than six days to complete this portion of the job, including the space occupied by the street car tracks.

A new track is being laid west of Fair Oaks avenue, and it is worthy of note that the rails are heavier than were the old ones. It is there is any probability of Pasadena having its street car lines operated by electricity at some time in the future, it would have been better had heavier rails likewise been laid east of Fair Oaks, a fact which is doubtless appreciated by the interested parties.

So satisfactory has the work been on Colorado street that some of the property-owners on Fair Oaks and Raymond avenues are eager and anxious to have the paving extended to their territory. It is not unlikely that this will be done to the extent of one or two blocks at least.

THE THROOP CELEBRATION.

A meeting of the committee having the Throop celebration in charge will meet Friday morning at 10 o'clock. Manager Holman, who is in charge, will be present, and will make a report on the progress of the celebration. It was decided that the banquet will be served about December 1. Chef David has submitted an attractive menu to the committee, which will probably be adopted. The idea of having a large number of people to the celebration is a popular one, the cost not to exceed \$2 per plate. Accommodations will be provided for several hundred guests. It has been suggested that the celebration be held on some other day than Saturday, in order to better accommodate the business men, who will find it inconvenient to close up their places of business on that day. Every body wants to participate in the celebration, and pains should be taken to accommodate as many as possible in the selection of a date. It is decided not to hold the celebration on a Saturday, let the schools be adjourned so that all the teachers may enjoy the pleasure of showing their appreciation of the man who has done so much to advance the cause of education in our midst.

A MIDNIGHT BLAZE.

The fire department was called out a few minutes past 11 o'clock Monday night by an alarm sent in from box 12, on the west side of town. The man who sent in the alarm was Conrad Schleiminger, who lives at 1200 W. 12th street. He called because his house on the bank of the arroyo, west of the Orange Grove Reservoir, was ablaze. Schleiminger was awakened by a fire which had gained full headway, and after removing a few articles of value, he made for the alarm-box. The fire department was called out, and a scene of action in time to be of any service. The house and contents, valued at \$1000, were destroyed. There was an insurance on the property. The origin of the fire is unknown. In returning the pole of the hook-and-ladder truck was snapped off by an attempt to turn in a street that was too narrow.

THE RECORDS GAVE 'EM AWAY.

A quiet wedding took place at the residence of one of our retired clergymen last Thursday evening. The young couple had made all their arrangements privately, and it is only within a day or two that the news began to be talked up.

It will surprise some of their near-est friends to learn that H. C. Burke and Miss Basore are the couple referred to. Mr. Burke has numerous friends who will rejoice that in California those who solemnize marriages are required to record the certificate thereof in the office of the County Recorder. He, personally, will deplore the custom, but he will not deplore the fact that "All's well that ends well."

MORE ROOM NEEDED.

Trustees Masters and Hartwell are devoting considerable time and thought to fitting up the best remedy for relieving the overcrowded condition of the public schools. There are four vacant rooms in the Washington School building and one vacant room in the Garfield building. Unfortunately, neither of these buildings and some of the others are centrally located, while the Wilson and the Lincoln buildings are filled to overflowing. The trustees are negotiating for the lease of suitable quarters somewhere in the vicinity of the two schools last named.

PASADENA BREVITIES.

The list of local tennis experts is increasing. An enjoyable photograph party was given at the residence of L. D. Benton, Monday night.

George Hill was out from Los Angeles on Tuesday.

Dr. McCoy of Los Angeles paid Pasadena a visit Tuesday afternoon.

Look out for that lady who comes today. Oh, won't they have a jolly time.

Pasadena Lodge, A.O.U.W., will meet in regular weekly session Thursday night.

A regular weekly meeting of Pasadena Lodge, K. of P., was held Tuesday evening.

Councilman Clarke was among the attendants at the Los Angeles races on Tuesday.

The iron culverts have been laid across Colorado street, at its intersection with Raymond avenue.

Work on the cement walks on the north side of the Throop University's new building is about completed.

Mrs. A. Gockley and Miss Gockley returned home Saturday afternoon from a two months' visit at Chicago.

Pasadena Belle, the pride of local horsemen, was beaten in Los Angeles on Monday, but she made the best re-

ords of the day and ended the race with the two fastest heats to her credit.

The Loyal Temperance Legion starts anew in a new hall and with a new set of officers. Those names will shortly be announced.

The concert to be given Friday evening, at the First Congregational Church, will be a noteworthy musical event. Tickets now on sale.

It is stated that Ernest Lynwood has left town in order to escape the payment of a \$50 fine imposed upon him by Recorder Rossiter.

Mrs. O. P. Gould and children have returned from an extended stay in the East, and are living at the old home on North Los Angeles avenue.

A. A. Adams, the well-known blacksmith, and wife have returned from a two months' Eastern trip, which included a visit to the World's Fair and with relatives in Cleveland.

A social will be held at the First Congregational Church this (Wednesday) evening, after prayer, for the purpose of welcoming home the pastor, Rev. D. H. Hill, who has just returned from an extended Eastern trip.

A meeting of the Advertising Committee of the Board of Trade was called for Monday afternoon, to discuss the matter of the publication of the proposed new pamphlet. There was no business transacted.

Invitations have been received here for a reception to be tendered by Col. and Mrs. G. G. Green, at their home, 1000 N. 1st street, in honor of their son, Harry Brown Green, and his charming bride, whom he recently wedded at home in Baltimore.

The local lovers of speedy horses, and they are many, will spend the day in Los Angeles, taking in the races. It is gently rumored that some of the boys from the World's Fair at Santa Ana, and that they hope to get at least a part of their money back at Agricultural Park.

The local firemen ought to be afforded opportunity to display their skill in the line of hoisting ladders, etc., in Los Angeles, where the department seems to be decidedly overpriced. In the recent public drill given here, the ladders were hoisted to a great height in an incredibly short space of time.

F. J. Jones has returned from a meeting of the Grand Masonic Lodge, held at San Francisco, where he represented Pasadena Lodge, Southern California. He was elected grand master, Dr. H. S. Orme was elected grand master, Florin L. Jones, grand marshal, James J. Valentine, senior grand steward.

SANTA BARBARA COUNTY.

Meeting of the Teachers Institute—C. E. Convention.

The session of the County Teachers Institute began Monday morning and was very interesting. The idea of having a large number of people to the celebration is a popular one, the cost not to exceed \$2 per plate. Accommodations will be provided for several hundred guests. It has been suggested that the celebration be held on some other day than Saturday, in order to better accommodate the business men, who will find it inconvenient to close up their places of business on that day. Every body wants to participate in the celebration, and pains should be taken to accommodate as many as possible in the selection of a date. It is decided not to hold the celebration on a Saturday, let the schools be adjourned so that all the teachers may enjoy the pleasure of showing their appreciation of the man who has done so much to advance the cause of education in our midst.

State Superintendent Anderson spoke first. He began by saying that he was very glad to be here, and that he was very glad to see the teachers. He said that the teachers were the backbone of the school system, and that they were the ones who were responsible for the future of the state. He said that he was very glad to see the teachers, and that he was very glad to see the students. He said that he was very glad to see the teachers, and that he was very glad to see the students. He said that he was very glad to see the teachers, and that he was very glad to see the students.

After recess P. C. V. Hoop of the High School spoke upon physical exercises, and gave his views on the laws regarding physical education. He said that physical education was very important, and that it was necessary for the students to have a good physical education. He said that physical education was very important, and that it was necessary for the students to have a good physical education. He said that physical education was very important, and that it was necessary for the students to have a good physical education.

Miss A. L. Hall gave a very interesting paper on arithmetic. Following this came a discussion on the laws regarding physical education. He said that physical education was very important, and that it was necessary for the students to have a good physical education. He said that physical education was very important, and that it was necessary for the students to have a good physical education. He said that physical education was very important, and that it was necessary for the students to have a good physical education.

After recess P. C. V. Hoop of the High School spoke upon physical exercises, and gave his views on the laws regarding physical education. He said that physical education was very important, and that it was necessary for the students to have a good physical education. He said that physical education was very important, and that it was necessary for the students to have a good physical education. He said that physical education was very important, and that it was necessary for the students to have a good physical education.

Miss A. L. Hall gave a very interesting paper on arithmetic. Following this came a discussion on the laws regarding physical education. He said that physical education was very important, and that it was necessary for the students to have a good physical education. SAN BERNARDINO.

Attempt to Reopen a Celebrated Water Case.

Argument in the Suit of Matthew Gage Against the Riverside Water Company—New Notes and Personalities.

A motion for a new trial in the celebrated case of the Riverside Water Company vs. Matthew Gage was argued Monday. R. E. Houghton appeared for the water company and Judge Kellogg for Gage. The court took the case under advisement.

This case first came before the courts about four years ago, the late distinguished attorney, Hall McAllister of San Francisco, representing Gage, and Houghton the water company. The suit occupied the lower court six weeks in taking testimony, and was held under consideration for several months. A decision was finally rendered awarding \$274 1/2 inches of the flow of the Santa Ana River to the defendants at the point of diversion by them.

From this decision the defendants appealed to the Supreme Court, but the judgment of the lower court was sustained. Now the defendants seek to reopen the case, claiming that the judgment of the lower court in not awarding a pro rata of water of the river to the defendants is a claim set up for riparian rights.

San Bernardino Brevities.

Mrs. C. D. Dickey is back from the World's Fair.

Judge John L. Campbell is in Los Angeles attending to business.

T. J. Bolton, clerk of the Board of Supervisors, is on the sick list.

The Macabees are going to "trip the light fantastic" on Friday evening.

Charles E. Nichols left on Tuesday via the C. & N. for Los Angeles.

Charles D. Whitcomb left on Monday night for Boston to visit his father, who is quite ill.

F. A. Urban, proprietor of the new St. Charles Hotel, is back from the World's Fair.

C. E. Thorne, wife and daughter Ida left on Tuesday via the Southern Pacific for a visit to Colborne, Kan.

William P. Hurd was a passenger on Tuesday's Southern Pacific bound for Des Moines, Iowa, to get his family to bring them here, where he has built a house for them.

On Monday evening the Knights of Training in San Bernardino chartered a train to bring them from Riverside after midnight, where they had been on a fraternal visit to witness work in the third degree and partake of a banquet.

Parties returning from the East report that in Pennsylvania the retail grocers are selling Chicago sugar at nine cents per pound.

The idea of having a large number of people to the celebration is a popular one, the cost not to exceed \$2 per plate. Accommodations will be provided for several hundred guests. It has been suggested that the celebration be held on some other day than Saturday, in order to better accommodate the business men, who will find it inconvenient to close up their places of business on that day. Every body wants to participate in the celebration, and pains should be taken to accommodate as many as possible in the selection of a date. It is decided not to hold the celebration on a Saturday, let the schools be adjourned so that all the teachers may enjoy the pleasure of showing their appreciation of the man who has done so much to advance the cause of education in our midst.

State Superintendent Anderson spoke first. He began by saying that he was very glad to be here, and that he was very glad to see the teachers. He said that the teachers were the backbone of the school system, and that they were the ones who were responsible for the future of the state. He said that he was very glad to see the teachers, and that he was very glad to see the students. He said that he was very glad to see the teachers, and that he was very glad to see the students.

THE CHIEF WINS.

Gossiper Loses to the Portland Horse.

Yesterday's Events at Agricultural Park.

All Interest Centered in the Stallion Trot.

Silkwood and W. Wood Will Pace Today Without Fall—The Prospective Winner—A Tale Bicycle Race—The Summary.

The track out at Agricultural Park was alive with interest yesterday afternoon, aroused over the varied and spirited events on the second day's programme of the races.

Besides the trotting and running contests there was a balloon ascension and a five-mile bicycle handicap race, which helped to vary any possible monotony.

The attendance was much larger, also, than it had been on the previous afternoon, and the pool-sellers did a rushing business.

The race of the day was the postponed event left over from Monday—the stallion trot, 2:20 class, best three out of five, for a purse of \$1000.

As predicted in The Times on Monday, Challenger Chief won, Gossiper second, and the third place was won by the Portland horse, Gossiper being put in the field. The full five heats were run out before the event was decided, however, Gossiper taking the first and third heats and coming in second on the intervening heat.

On a straight trot, providing Gossiper could hold his legs, it was conceded that the two horses would come very close to a tie. Gossiper's former record is 2:24, and yesterday he lowered this to 2:14, but was even then bested by the Portland stallion, who is thought to be able to make his 2:14, on a steady pace, and is thoroughly steady on his feet.

The opening heat was taken so easily yesterday by Gossiper that the first Chief's friends began to look rather dubious, and the sale of pools in favor of the latter was rather slow. The second heat was won by Gossiper, and the fourth and fifth went straight to the former.

The grand stand and grounds will be filled with a great crowd today, as the free-for-all race between Silkwood, Our Dick, W. Wood, and others, will surely come off. Encouraging reports of Silkwood's improved condition have gained general credence among the sporting men, and the patronizers of the pool-box will stand ready today to back the Orange and white, and the sticky against the pace of W. Wood, who won at Santa Ana last week. Wood is set down as the favorite in the first heat, and Silkwood as the favorite in the second, with Our Dick third choice. The prophecy is that Wood will be put in the field after the initial mile is paced off.

FINISHED THE TROT.

The track at 12:45 yesterday, when the final heat was called in the unfinished 3:00 trotting race, as the first for the afternoon, was heavy. It had just been sprinkled, and the sticky mud clung to the pneumatics with a tenacity that made the speed very slow. Regina and Lompoc were the only horses left in the heat, and which was Regina's from the start. At a quarter of the way around the daughter of Electioneer began to pull away from Lompoc, and when half the distance was covered at least three lengths separated the trotters. As the three-quarter post was passed Lompoc began to draw up, and on the stretch his head was on a line with the tail of the leading horse. In this way the finish was made. The time was 2:24, and the judges declared Regina winner of the race and first money; Lompoc second.

THE BICYCLE RACE.

Compared with the events in which the horses figured the five-mile handicap bicycle race was very tame. L. W. Fox, Carson Shoemaker, H. E. McCrea, J. J. Long, J. W. Cowan, Macy Thompson, H. B. Cromwell, W. K. and C. A. Cowan and W. A. Burke started, Fox being on the scratch and Shoemaker, J. J. Long and Macy Thompson were allowed the heaviest handicap that being 40 yards. It was plainly Fox's race from the first, and that rider did not make pace, although he did best time. The first three miles were covered quickly, the men maintaining their relative positions very well. Fox then closed up the distance between himself and the first starters with ease as the final circles were made. Just on the stretch did he allow himself to be left behind, and to all appearances it was not his design to come under the wire first. At any rate J. W. Cowan won the race, and Macy Thompson was second and Fox third. The judges gave Fox first prize for time, Cowan second prize for first place and Thompson third prize for second place. Burke dropped out early in the race.

HALF-MILE DASH.

A quartette of handsome youngsters were called out on the track for the running, half-mile race, mule plate, sweepstakes. They were Sutton, Polasky, All Baba and Lewance, with running weights respectively of 118, 113, 118 and 115 pounds. Polasky, the favorite in the race, was the winner, with Lewance second and All Baba third; time 0:50.

THE STALLION RACE.

The great stallion trot came next. Challenger Chief had been driven into the course and the race was slow, and he looked in splendid form. Gossiper appeared to be a trifle nervous, while Gen. Wiles and Conn, the other starters, were as quiet as lambs.

The horses got on after a few ineffectual trials at a start, and went away at a slashing pace. Challenger Chief led by a nose at the quarter, with the other horses pressing him closely. The half was passed with little change in positions, but at the three-quarters Gossiper spurred and got ahead of the Chief slowly. At the wire the last named horse had dropped about three lengths behind and only finished third, Gen. Wiles, driven by Mabey, taking second place; time 2:19.

Odds in the second heat were inclined to seek a level, and the tendency was toward Gossiper as favorite. The trotters went off at the second trial on this heat. Gossiper broke at the quarter turn, and that gave the heat to Chief, for no sooner was Gossiper off his feet than Chief went past him with a rush. Chief won the heat in 2:17; Conn second.

With one heat each, the excitement as to which of the fast horses would next prove victor became intense. The pools sold even, however, with Gossiper in the field. This time the backers of the field were victorious, but the losers were in a greater number.

Gossiper held up well under the strain, and won for the second time, with Chief close behind him. The time of 2:14, the best in the race, was made in this heat.

Again did confidence in the Portland horse begin to wane. The fourth heat was close, but the time was slow. Chief passed under the wire in 2:18, winning his second heat. The race

would be decided on the last mile. Meanwhile Chief was once more the favorite. Tremendous odds were taken in his favor, the pools going as high as 50 to 1. Every one was loaded with Chief tickets. It was nearly sundown, but the crowd remained to see the final heat. Chief was as fresh as ever, and Gossiper went away remarkably well. The horses got to the quarter with a rush, Gossiper leading. "It's Gossiper's race!" shouted the grand stand with one voice, as away around the half Durfee urged on his horse. The three-quarter turn was made in the same order. On the stretch the horses came neck and neck. Gossiper's driver saw that he was about to be beaten, and he struck his horse sharply. Gossiper could not respond, and Chief, steady as clock work, came to the wire in the lead. The time on the final heat was 2:15.

2:20 CLASS TROT.

It took but three heats to decide the 2:20 class trot. Lady Clare, Mabey's chestnut mare, and Queen Ann, of stock from the same owner, were the only starters. The race was an easy mark for Lady Clare, who was far the faster of the two. She took the three heats in 2:22, 2:23, and 2:24.

Adelaide Simmons and Sir Credit gave a very tame exhibition of trotting in the three-year-old race. Adelaide Simmons winning the heat and the race by distancing Credit in one heat; time 2:22.

SUMMARY.

3:00 trotting, 3 in 5: Regina won, Lompoc second; best time 2:19; made by Pasadena Belle.

Bicycle race, five-mile handicap; J. W. Cowan, 400 yards, first; Macy Thompson, 400 yards, second; L. W. Fox, 400 yards, third; best time 14:19; made by Fox.

One-half mile running, maiden race; Polasky won, Lewance second, All Baba third; time 0:50.

2:20 class, stallion, trotting, 3 in 5: Challenger Chief won, Gossiper second; best time 2:14; made by Gossiper.

2:20 class, trotting, 3 in 5: Lady Clare won, three straight heats; best time 2:22.

Three-year-old, trotting, 3 in 5: Adelaide Simmons won by distancing Sir Credit in the first heat; time 2:24.

TODAY'S PROGRAMME.

The programme this afternoon will be the most exciting one of the week, as it will bring out the pacers, and give Silkwood an opportunity to show his back to the fence. The first race will be from him. Wood is in very fair condition, and will make a game struggle to again defeat the pride of the "down county" crowd. The chief of the crowd is not particularly flattering. In addition to this and other events there will be a match race between Walter Comrade, Comrade is the Stamboul-Victoria horse originally entered in the 3:00 trot.

THE EXHIBITS IN PLACE.

General Good Order in the Pavilion and Out—"The Balloon is Up."

The second day of the industrial exhibition found the scene of intense activity transferred from the secretary's window, where he was at home yesterday Monday, and distributed generally among the animal pens and the horticultural, agricultural and industrial exhibits. Tuesday morning found a majority of the exhibits in place, and order pretty generally established in the pavilion and throughout the grounds.

In the forenoon there was nothing to draw attention with what the farmers, gardeners and business people of Los Angeles had to show. The display of the attendants, largely increased over those of the day before, examined the great variety of products and methods of the horticultural industry. Among the people who passed to and fro there was quite a sprinkling from the advance guard of the coming army of the horticultural industry. This was not unattended by minor annoyances, but the aeronaut escaped accident. As the great bag filled it proved very unwieldy in the breeze blowing at the time, and some little time before it was ready for its flight the guy ropes from its top broke. This left its control wholly to the breeze, and it descended and allowed it, too, in starting, to follow the direction of the wind instead of rising nearly straight into the air. William Roundtree was the airship's passenger, and followed its fortunes although when fairly aloft it was discovered that the four guy ropes by which its cage was attached had been burned while the balloon was filling, and two of them almost immediately gave way. The other two held, however, until the airship had descended one thousand five hundred feet up and outside of the grounds, the bag came down. The other ropes gave way, and the airship descended, and the balloon, rising again without any weight attached, turned completely over and belched coal oil smoke, with a large fire, until it collapsed and fell harmlessly to the ground.

Another ascension is on the programme for Friday afternoon. At 10 o'clock this (Wednesday) morning, begins the display of live stock on the track, and the award of premiums. There are probably more animals in all departments than on the first day, and the showing will be a creditable one. This will be the first of premium awards, and will be followed from day to day in other departments.

WHAT IS TO BE SEEN.

Walks and Talks Among the Exhibits—Jottings and Side Notes.

Among the interesting exhibits within the pavilion, not more for what it promises to contain than for its promise of the future development of an important industry, is the display of olive products from the Howland nurseries of Pomona. The exhibits include olives in various stages of maturity, as may be picked for table use, but the most interesting display is that of the olive oil manufactured by Howland Bros. It lacks nothing in color of ranking with the best of its kind, and the tests have shown its quality to be very superior.

"We made about five hundred gallons of oil last winter," said Mr. Caldwell, who is in charge of the exhibit, "and we could have disposed of ten times as much, could we have produced it. We have prepared for a much larger product this year, but may not make it on account of the short crop. We rely mostly on the Mission olives, and this is an off year for Mission."

"As to the price of olives?" asked the scribe.

"We are offering \$100 a ton for all we can get," was the reply.

"How about the culture of olives?" "A great many people have begun growing young trees for market, on account of the demand," said Mr. Caldwell, "and the nursery supply may become overdone; but there is no danger of there ever being too many bearing plants cultivated."

The pits will be taken out of the olives before they are ground at the Pomona mill this year. Heretofore, for lack of a successful pitting-machine, they have been ground up entire.

The Cudahy display on Tuesday was flanked on either wing by a good-sized, roasted porker. The porkers on Tuesday served small cups of hot soup, made from beef extract, and accompanied this with sandwiches liberally lined with boiled ham. Whosoever came might eat, and most of them did.

Hugh Rile of San Antonio has a display of unirrigated products. It includes the largest watermelon on display, sweet potatoes of similarly mammoth proportions, as well as immense corn, beans, and some sound, large cabbages. A pretty rich combination, it makes, for the arid region whence it came.

At another table there is a very complete display from Burbank, including almost every staple of garden and field. The assortment, too, is unirrigated product. No State but California could equal it for size of the specimens or variety of them. They demonstrate very clearly the productive capacity of the soil in the San Fernando Valley.

N. C. Wilson makes a very creditable showing of honey from his San Fernando ranch. Some neat art work has been done in the wax, several figures having been molded from it, and the honey is very clear, or sweeter, than which nowhere. There is also a large comb, glass-enclosed, illustrating by the life within the ceaseless motions of the busy bees.

A pair of fox-terrier pups have found place in the poultry-house.

The muscovy ducks in the poultry display are among the most novel birds in the building. The larger fowl is frequently mistaken for a member of the goose family.

One of the brooders in the pavilion responds to the plaintive chirp of a dozen chicks which have never known the care of any mother other than mechanical contrivance they now inhabit.

It is passing strange that so many men who declare so loudly that they must attend the fair in order to study the agricultural resources of the county, are found hanging farthest back from the fence, and when the stand when the first race is called, and continue to hang thus to the end of the chapter.

It is peculiar to notice that the straight tips on the races so universally put the judgment the wrong way. Good displays of organs, pianos and sewing machines are to be seen.

A number of water-lifting devices have been set in motion. The fellow who has figured out a "dead weight" for the water wheel is, in short, quite numerous. The wheel is still turning, however.

The result of the day's racing is a substitute for the grand stand, or a vantage point from which to see the races.

Silkwood may have lost a race, but not his place in the popular heart. His name is on every tongue.

Forty thousand dollars. Important Real Estate Deal Consummated Yesterday.

Another Straw Showing How the Wind is Blowing That is to Usher in the Inevitable Boom That is Coming.

An important real estate deal was concluded yesterday, by which eighteen acres of undeveloped city property, cornering on Eighth and San Pedro streets, comes into the hands of two of the most wide-awake, progressive and broad-gauge real estate men in Los Angeles, who, with characteristic energy, have already commenced, without the loss of an hour's time, the work of putting it into proper condition for marketing. Their engineers are already on the ground, subdividing and platting it, and within a week a hundred men and teams will be busy at work clearing it up, grading streets, laying sidewalks, setting out shade trees, and otherwise getting it into first-class condition for selling, some two months later on. It is the intention to market the lots at a low price—about half what the neighboring property is held at—and to insure large profits to those who buy, as well as encouraging the public at large to take hold when similar opportunities are offered. It is as certain as anything in this world is certain that Los Angeles is on the verge of a great and permanent advance in real estate values, and it is to hasten this and demonstrate what profits may be made by buying now while prices are below the normal that this sale is undertaken. The property here referred to is known as the Elliot & Masear tract. The purchasers are Wesley Clark and E. P. Bryan, and the price paid for the eighteen acres, and the First National Bank and Jose Masear, was \$40,000. The tract is as level as a floor. San Pedro street, which is one of the widest and finest in the city, bounds it on the west, and Clark avenue, the same width, will run through it, parallel with San Pedro. Eighth, Ninth, Tenth and Eleventh streets will cross it east and west.

DEATH RECORD. SMITH—October 17, at noon, infant son of Henry B. and Carrie J. Smith, at residence, No. 232 Lower street. Funeral today, at 4 p.m., from residence. (Minneapolis papers please copy.)

Easton, Eldridge & Co. Will sell at auction, on Saturday next, 150 horse family lots in Angeles Heights. Sale takes place at 2 o'clock p.m. Take Temple-street cars direct to the property, which is located at the proposed extension of the electric road to be built along Bellevue avenue, and catenagies, and special free ticket, Temple-street cable road, at Easton, Eldridge & Co., 121 South Broadway.

The W. O. Furry Company. Do all kinds of plumbing work at reasonable prices. Call and call upon them before going elsewhere. All work warranted.

The only Keeley Institute in Southern California is at Riverside, The Los Angeles office is at rooms 48, 49, & 50, Wilson Block.

STAMPING and pinning at short notice. Buttons and tailor buttons to order. Zimmerman & Co., No. 22 South Broadway.

CONRAD for fine watch repairing. 123 N. Spring, corner Franklin.

STEEDMAN'S Soothing Powders relieve feverishness and prevent fits and convulsions during the teething period.

GOOD Salmon and Napa Zinfandel at 50 cents per gallon. Abadie & Apfel, Wine Merchants, 80 W. Fifth street.

MORNING'S—Beacham's Pills with a drink of water. DANRUFF is a disease of the scalp. Van Haren's Quinine Hair Tonic cures it.

ARIZONA NEWS.

Big Companies Fall Out and Workmen Suffer.

Tramps Hold Up Two Chinese Restaurants. Very Successfully—Big Improvements at Clifton—Lassing a Wildcat. Militia on Wheels.

Special Correspondence of The Times.

TUCSON, Oct. 13.—Through a falling out between two big concerns, workmen are having a disagreeable time of it. The San Francisco Bridge Company, which has the contract with the South Gila Canal Company for the construction of the big dam on the Gila, suspended operations a few days ago. There are from seventy-five to one hundred men idle, nearly all penniless, through not being able to get the wages due them, and many are insufficiently fed. The laborers who surrendered their time checks to the company's representatives and signed agreements allowing discounts for collections and attorney's fees are being fed at the company's expense. The others are rustling. It is understood that the San Francisco Bridge Company had rather the better of the contract with the canal company, and the latter is willing that the former should withdraw.

The immigration of the tramps from California will be remembered by some Arizona Chinese. The labor at the Gila say for themselves that in California they could have done something in the way of picking fruit, had the work not been taken over by the Chinese.

It was evidently with this sentiment that twenty-one of them a few days ago dropped into Mr. Lee's restaurant at Yuma, and exhausted their twenty-seven. In Tucson they are not allowed to disperse. They are kept a-going. The only food given them is bread.

COPPER PLANT IMPROVEMENTS. The Arizona Copper Company have their large leaching plant about ready for operation, and the manufacture of acid is now in progress. This new process promises much for Clifton and vicinity. Thorough and exhaustive tests have been made, and the expenditure of nearly \$100,000 by the company shows that they have no doubt of success.

Such a result greatly increases the output of copper at Clifton, and the Detroit Copper Company will erect a similar plant at Morenci when success has been demonstrated by the Arizona company.

MINERAL BEAUTIES. Says the Scientific American: The display made by Arizona at the World's Fair is unsurpassed for beauty. The specimens of petrified wood from Apache county are not finer than those of the Tiffany has, but the great fragments of trunks reassure one about the vast extent of the forest changed into this gorgeous mass of color, which no artist can approach in mosaic. There are very interesting crystals, red and yellow, of sulphur and arsenic, and other minerals of great value. One cubic mass of azurite weighs 5695 pounds, and assays 35 per cent of copper. The crystals of both are of great value.

Many of them are drusy, and the effect is that of the richest velvet. Such specimens are too beautiful to be regarded as mere curiosities. They show the sight of the table tops of malachite shown in the Russian section of the Liberal Arts building may induce some of the Arizona deposits in this way. They should be cut instead of melted.

THEY LIFTED POULTRY. A Phoenix woman and her wife have been supplying the hotels and restaurants in Phoenix with turkeys and fresh pork from the coops and pens of the adjacent farms. They had a small wagon with one small horse attached, and were driving about the valley in daylight the man would shoot the turkeys. Throwing them into his wagon he would take them home, where they were dressed for market.

When captured the pair had fourteen fowls, fat robbers hanging up in the wagon ready for delivery. An examination of the dress showed that the turkeys, but there were signs of several hundred turkeys and chickens having been dressed for market. The poultry dealers are in jail.

MILITIA ON WHEELS. A movement is on foot to organize in Phoenix a bicycle club on the model of similar organizations in the Eastern States. The company will be of military character, and will be equipped with military duties and tactics, and there seems every prospect that the unique organization will be an entire success. Manuals containing the evolution of the most noted Eastern organizations have already been sent for.

ARIZONA AT THE MIDWINTER FAIR. Frank S. Dobs of this city has engaged space at the Midwinter Fair at San Francisco for an Arizona Indian village. Papagoes or Pimas will probably be sent. His idea is to illustrate, in such a village, the every-day life of the Indians of Arizona and of Mexico, and to have them make arrowheads, knives, pottery and blankets on the premises. They would live in peculiar houses, made by themselves, surrounded by the immense desert which grows so common in the Territory.

LA SASSING A WILDCAT. A day or two ago Master John Brice, aged 15 years, while riding the range, discovered a wildcat asleep. He rode up, and before waking it, struck it a heavy blow with the butt of a whip. The blow served only to inaugurate a fight, and the boy was compelled to give the cat a wider berth. He was unarmed, and so relied on his own strength. He made several throws, which the cat evaded, all the time approaching the horseman, who was more than ready to give up the fight. He occasionally the cat would seize the lasso and tear it viciously. At last a successful throw fastened it to death. It was a magnificent specimen, and weighed fifty pounds.

A NOVEL TRAVELER. On the west bound overland train which passed through Benson Monday a ten-year-old boy. He occupied a seat all to himself, and about his neck was a cord to which was attached a card bearing his name, etc. He was a rude from the interior of Germany to San Francisco, and could not speak a word of English, but the card explains everything, and he will experience no trouble in reaching his destination.

MERCY TEMPERED WITH JUSTICE. The Board of Supervisors of Coconino county has found that there is a shortage of \$7,364.47 in the county funds, which had been deposited in the suspended Albuquerque National Bank by County Treasurer A. T. Cornish. The

latter is exonerated from all evil intent, continued in his functions as such treasurer, but the District Attorney is ordered to bring suit against his bondsman for the recovery of the amount.

A GHASTLY FIND. At Socorro, N. M., a few days ago the naked body of a large man was discovered floating down the Rio Grande. The hands and feet were tied with bands of cloth, probably torn from the man's shirt. The head was missing, having been cut smooth from the body. The head has not been found, and the body is unidentified.

PERSONALS. P. T. Falsen, of North Carolina, special Indian agent, is on a tour of Arizona Indian agencies, each of which he will inspect and report.

An Alabama man named Britton has been appointed sub-agent at the San Xavier reservation, near Tucson, succeeding Agent Berger.

E. O. Kennedy of Florence has accepted the superintendency of the famous Gunsight mine, which is about to resume operation.

AGRICULTURAL. A Phoenix hay dealer has a letter from England, inquiring as to the feasibility of shipping alfalfa to Liverpool.

Prost occurred in Graham county a few nights ago. The proprietor of the Tempe Creamery, from Chicago to make arrangements for the sale of the dairy products. It is a strange combination of circumstances when the producer of the Arizona cow must find a market in Chicago, while thousands of Arizona families are daily consuming Illinois and Kansas butter. The dairy product of Arizona does not equal one-fifth of the home demand.

Some cotton grown from a single seed of growing mostly at Arizona is of fine fibre, the balls being well filled. The growth of the sample at hand is a demonstration that with care and cultivation the cotton can be grown in Southern Arizona. The Nicaragua Canal and a seaport at the head of the Gulf of California would place Arizona cotton fields as close to the world's great markets for that staple as are those of India.

The new head of the consolidated canal on Salt River has been completed and water turned in.

The round-ups in the southern part of Pima county confirm the expectations of heavy losses this year. The herds are lamentably light as compared with last year, though at present it is impossible to make an estimate of losses. The cattle that have survived are in perfect order.

BREVITIES. The body of John Conrads, lost on the desert in June, was found near Ehrenberg by Indians.

The Southern Pacific has commenced suit against the village of Yuma to quiet title to certain property.

Surveying has been begun for a levee at Yuma to be built by the government.

The T. M. & M. Co. mines at Tombstone have never looked better than now, and if silver would reach 85 more men than before would be employed on these properties would be listed on the pay-roll.

A mine near Nogales is said by experts to produce a superior quality of lithographic stone.

There is a proposition on foot in Phoenix to build a seventy-five-ton smelter here, and there are healthy signs of the scheme being successful.

Last month saw two new ten-stamp gold mills started in Maricopa county, and within three weeks will see 100-stamp mill in operation and running on good gold ore.

The Kingston smelter has blown in, under the management of the Robertson & Baker Refining Company of Newark, N. J., and is running successfully. A new fifteen-ton stack has been added to the original, and it is the intention of the company to put another fifteen-ton stack in place as soon as their mining property is opened up, or the assumption of work on other mines begins.

A mad coyote is being dreaded and avoided by ranchers of Pinal county. The Phibitz has under consideration the extending of herself to take in some additions.

The city tax-roll shows a gain of value of about \$600,000 last year. Next year, with the additions, the prospects are the gain will be \$1,000,000.

WENDELL EASTON, Pres. GEO. W. FRINK, V-Pres. GEO. EASTON, Secretary. ANGLO-CALIFORNIAN BANK, Treasurer.

EASTON, ELDRIDGE & CO. REAL ESTATE AGENTS. GENERAL AUCTIONEERS.

EASTON, ELDRIDGE & CO. REAL ESTATE AGENTS. GENERAL AUCTIONEERS.

AT AUCTION!

SATURDAY, OCT. 21, 1893, at 2 P.M.,

On the property, under the large auction tent, we will sell at

ANGELENO * HEIGHTS
